## Summary of Qualifications

---

Front-End Developer skilled in building responsive and user-friendly web applications using React.js, Tailwind CSS, Zustand, Axios, and React Query. Developed multiple real-world training and freelance projects with integration to both mock and real back-end services. Passionate about clean UI, user experience, and continuous learning.

## Skills

---

HTML, CSS, Tailwind CSS, JavaScript, React.js, React Query, Zustand, Axios, Fetch API, Git & GitHub

## Soft Skills

---

Communication, Teamwork, Problem Solving, Time Management, Adaptability

## Projects

---

### E-commerce Platform & Admin Dashboard

React, Zustand, Tailwind CSS, Axios, React Query, Stripe, Node.js (Real Back-End)  
Developed two versions of the e-commerce and dashboard system: one using Context API and Fetch for mock APIs, and another using Zustand, Axios, and Node.js for full real back-end integration. Includes authentication, cart, checkout via Stripe, admin product/user management, and analytics.

### Hotel & Flight Booking Website

React, Tailwind CSS, Zustand, Axios  
Dynamic booking system with search, filtering, and reservation flow. Fully responsive with smooth UX and mock API integration.

### Restaurant Reservation System

React, Tailwind CSS, Zustand, Axios  
Table reservation system with user authentication and real back-end integration.
